CHAMPIONSHIP COMMENTS

I must commend you on a spectacular show. I mean of course the NWC. My favorite part was the Competition Arena. It was impressive. The competition was tough! When the adrenaline starts pumping you really get into it! I made it to the semi-finals and it was great! My friend, Gary Batman, was one of the finalists. The Power Walk displayed excellent games. My favorites were SMB 3 and Ninja Gaiden II. To play SMB 3 you had to wait in a long line! The Game Boy games were neat too. It makes me want to get one. I saw Ben Smith there and I got Howard Phillips’ autograph.

Ben Clemmer

We’re glad you had a good time at the Nintendo Power Fest 1990, Ben. All you other readers who attended the event, let us know what you thought!

FROM SHARP MINDS...

I am 9 years old and I just competed in a school program called Invent America. This program asks students from across the United States to make an invention that can solve a problem. My problem was one that a lot of my friends had also: the Nintendo controllers always stayed on the floor and often the cords got tangled up. My mother was always calling me back to put them up whenever I left them on the floor, which was most of the time. I invented an Automatic Control Winder for the Invent America program. Many students and their mothers saw it and said that they really needed one. This invention is made of a box that the Nintendo Entertainment System Control Deck sits on. It has space for two controller cords to wind up inside. You push a button and the control cords wind up out of the way. It works like a retractable cord to a vacuum cleaner does. The Automatic Control Winder also has room to store Game Paks.

Eric Rackley
Valdosta, GA

Well Eric, your idea looks good on paper (or whatever your model is made of...) Although there aren’t any products quite like it in the works, we here at Nintendo have also given some thought to the problem of tangled cords. Our solution—the NES Satellite, our infra-red remote controller that not only eliminates cord tangle, but lets four people play simultaneously!

FUN IN THE SUN

Both of my children are Nintendo fans and spend hours indoors perfecting their games. As residents of Federal Way, Washington, we get about 56 sunny days a year, and as a mom I feel obligated to shoo them outside on those rare days when the sun shines. Thank goodness for Game Boy! Now I can prop them against the deck railing outdoors in the sun, and they never have to miss a beat!

P.A. Dahl
Federal Way, WA

Although Game Boy is great for outdoor play, we do not recommend exposing the screen to direct sunlight for prolonged periods of time. The sun sounds like it’s great for your kids though, but be sure to turn them over every so often so they tan evenly as they’re propped against the railing.

NES SANITY-SAVER

I am writing to express the pure enjoyment I’ve received from your Nintendo Entertainment System this year. While we were vacationing in the U.S., our home was destroyed by the rampaging Hurricane Hugo. We returned to St. Croix, U.S.V.I., 13 days after Hugo struck to find very little left of our home. We had lost virtually everything. Weeks later, when we found a temporary apartment with an electrical generator, I plugged the NES in. To my delight, Mario and Luigi appeared on the screen. With no television service, our Nintendo games were our only source of entertainment for months after Hugo. Thank you for bringing a ray of sunshine to the bleakest time of
our lives. The NES saved our beleaguered sanity. I am enclosing pictures of our house and my child-like delight at discovering that my NES worked.

John H. McGrath Jr.
Worcester, MA

Thanks for sharing your experience with us, John. We're glad that both you and your NES survived the disaster of Hurricane Hugo, and wish you the best of luck in the future.

In a future letter column, we'd like to feature letters on your worst "Nintendo Nightmare." We're not talking about real disasters like the one John McGrath went through, but events like the time the batteries failed in your Game Boy when you were about to get 25 lines in Tetris Game B, 9 Heart level, or when your kid sister turned off the power and erased your game in The Legend Of Zelda. Make it funny and interesting. We'll print the best (or worst) "Nintendo Nightmares" in a future edition of Mail Box. So everyone, send your "Nintendo Nightmare" to:

VIDEO SPOTLIGHT

My wife and I gave ourselves a Nintendo Entertainment System for Christmas in 1988. We thought it would be fun for our grandkids when they visit. Well, it's not hard to guess what happened—we were instantly hooked.

We not only found it VERY entertaining, but it has helped us close the "generation gap." You can talk Nintendo with almost every young person.

While we all have our own favorites, my wife and I play most of the games together. One runs the controls, the other draws maps or helps as needed.

I sent you a picture of our Brittany. She's AKC registered "Sleeping Princess Zelda." She really doesn't play, but she likes to sit in our favorite playing chair.

Togethers, my wife and I have completed Hudson's Adventure Island, Metal Gear and The Legend Of Zelda, among others. Our next challenge is Ultima. I don't know if this makes us "Power Players," but we think it's pretty good for "old folks."

Bob and Fran Hembrea
Portland, OR

Jonathan Ciuffreda, 6, is a phenomenal Nintendo Power Player. He has been playing the Nintendo Entertainment System for less than a year and has successfully completed 16 games including The Legend Of Zelda, Super Mario Bros. 2, Duck Tales, Bubble Bobble, Simon's Quest, Mega Man 2, Wizards and Warriors, Metroid, Life Force, and The Three Stooges.

What is most interesting about Jon is that at the age of 6, he has truly learned to read while concentrating on such games as Dragon Warrior, The Legend of Zelda, The Adventure of Link, and Faxanadu. His favorite bedtime reading is Nintendo Power. It is not unusual to find Jon in his room or at the kitchen table reading Power. Although he can't read every word, he understands the ideas.

His concentration is so intense, he can play Nintendo games for hours at one stretch. He can't wait to get Super Mario 3 and is now working on The Adventure of Link. Jon truly deserves to be a Nintendo Power Player.

Final Fantasy redefines the limits of both Adventure and Role Playing Games by plunging you into a world brimming with its own history and legends. It is a vast world that pits you against deserts and oceans as well as armies of Chaos. Solving the puzzles and winning the battles are not easy tasks, but they're not impossible, either. Get a quick start using the Explorer's Handbook that comes with the game. A quick review of Final Fantasy's earliest stages follows this page. Then it's on to greater challenges by land, sea and air as the four Light Warriors pursue their destiny. Don’t forget to read about the July/August Final Fantasy Treasure Quest and how you might win real treasure.

An Adventure Pack Or Suit Of Armor May Be Yours If You Enter The...
FROM CONERIA TO CRESCENT LAKE: THE QUEST BEGINS

There's so much to see and do in Final Fantasy that even the 84-page Explorer’s Handbook provided with the game can't cover everything. The following three pages list the major tasks facing the Light Warriors during the early stages. If you're just starting out, use the information as a quick play guide. If you've already reached Crescent Lake, you might want to see if you've missed anything valuable. There is so much treasure lying about that missing a critical treasure chest is easy to do. Get your bearings using the full world map on pages 12 and 13. If you missed the first installment of the Treasure Quest, be sure to look back at your May/June issue. Contest details can also be found in the May/June issue of Nintendo Power.

CONERIA

The quest of the Light Warriors begins here in Coneria. First, visit the King in the castle and talk to everyone you meet. Then go to the town and buy weapons and armor at the shops. Make sure you Equip each Warrior. In the forest outside the town, fight enemies until you reach Level 3 for each member of your party.

The King tells you what has happened to his kingdom and challenges you with a quest.

GARLAND'S CASTLE

In the north is the castle home of Garland, an evil wizard who holds Princess Sara captive. Take as many Heal potions as you can afford. Magic users in your party should save their magic for the fight against Garland. HARM, CURE and FIRE are all good spells. Collect treasure from the castle before the battle.

Defeat Garland and return the Princess to Coneria for the King's reward.

MATOYA'S CAVE

Cross the King's Bridge to the north and begin searching for Matoya's Cave. Again, bring lots of Heal potion so you don't waste magic using the CURE spell. Take a Tent with you to save your progress. Once you reach the cave, the broom tells you how to use the world map. Then talk to Matoya.

Matoya needs a crystal to regain her sight. The crystal can be found in the south.
PRAYOKA

The trip to Prayoka is long and dangerous so stick to the grassy areas as much as possible. In the port town, talk to everyone. Your levels may have gone up, too. See if you are ready to buy Level 2 magic spells. Fill up your HP by staying at the inn, then search for the pirate who has been terrorizing the town.

Use SLEP—the sleep spell—against the pirate crew. Then attack and win a ship!

ASTOS & THE MARSH CAVE

The Northwest Castle is Astos' home—your next goal! There Astos tells you to look for a lost crown in the Marsh Cave. Take 99 Heal potions into the cave. Use Level 3 and 4 magic spells to defeat difficult enemies such as Wizards and Gargoyles. In the lowest dungeon you’ll find a crown. Return the crown to Astos.

Make sure your party is at full power when you enter Astos' chamber

ELFLAND

Across the Aldi Sea lies Elfland. A great deal of information is available here. High quality weapons are also available in the shop. The Silver Sword is great for your Fighter. Earn Gold and Experience points in the forest that surrounds Elfland. Raise your Levels to 9 or 10 before moving on to Astos and the Marsh Cave.

Only an Herb obtained from Matoya can wake up the sleeping Elf Prince

FROM ELFLAND TO THE DWARVES’ CAVE

After defeating Astos, return the Crystal to Matoya and get the Herb to awaken the Prince. The Prince will give you the Key. Go to Coneria and explore the Treasure Room. Then it’s time to visit the Dwarves’ Cave directly to the west. There you should talk to Nerrick who needs the TNT you found in the Treasure Room.

Nerrick uses the TNT to blast a passage to the Western Sea. Now you can sail to Melmond

Make sure your party is at full power when you enter Astos’ chamber
MELMOND

Listen carefully to the people of Melmond and check out the Armor Shop for some powerful items. There's no Tool Shop here, though, so you should stock up on Heal and Pure potions before setting sail from Cone-ria. Dr. Unne lives in this town. Much later in the game you'll have to pay him a visit.

THE EARTH CAVE

The people of Melmond told you about a Vampire. He lives here in the Earth Cave, but he is not alone, nor is he the main enemy to be found in the cave. You should be at about Level 11 now. No matter how strong you are, it won't be an easy fight. Against the Vampire, try using the FAST spell to increase the power of a Fighter.

THE TITAN’S CAVE AND SARDA

By defeating the Vampire in the Earth Cave, you'll obtain a Ruby. Feed the Ruby to the Titan in the cave west of Melmond and he'll let you pass. Don’t miss the Treasure Room at the bottom of the cave! Then see Sarda in the cave further south. He'll give you the Rod that moves the stone slab in the Earth Cave.

CRESCENT LAKE

If you have the Gold, this is the place to buy great silver weapons and armor. It's also the town where you meet Lukahn. Follow the woodland path from the northeast corner of town to the Circle of Sages. They'll tell you all about the world's trouble and give you a canoe. Buy a House in the Tool Shop.
The world of Final Fantasy is a sprawling place with every imaginable landscape. From impassable mountain ranges to serpent-filled seas, this is a world made for adventure. Using the trick taught to you by the Broom in Matoya’s cave (Push B Select), you can see your party’s present position in the world, as well as other key locations. Other useful maps are supplied in the Explorer’s Handbook (Supplied with the Game Pak) to help you cover the many treacherous territories. One of the most exciting parts of Final Fantasy is exploring new regions—going where no one has gone before! Your maps will prove invaluable.

They say that getting there is half the fun.

The Pirate Ship takes you from the area around Coneria to the wide southern lands. The Canoe is used in rivers. The Airship opens up the North.
Northwest of Stream Lake is Gurgu Volcano, home of Kary, the Fiend of Fire. Using the canoe to paddle upstream, you’ll battle many river creatures. Fighters are strongest against them, but you can Run from most. Before entering the volcano, use a House to save your progress and restore HP. If you don’t succeed on your first trip inside, you’ll be able to start again at the entrance. Plan your route using the maps below to avoid dead-ends and as much of the damaging lava as possible.

**LEVEL 1**

If your HP and magic levels remain high after the second level, proceed to Levels 3-A and 3-B. Avoid lava where possible and restore HP with Heal potion. Don’t waste magic. It’s better to Run.

**LEVEL 2**

A quick trip through the Second Level treasure rooms will earn you valuable silver armor and weapons plus lots of gold.

**LEVEL 3-A**

**LEVEL 3-B**
LEVEL 4

In the upper left corner of Level 4 you'll find an Ice Sword and the Flame Shield—both valuable items. Come back to get other items and gold after defeating Kary.

LEVEL 5

Each step on lava reduces the HP of each party member. By staying on the cool, darker lava, you can conserve HP. Carry a full supply of 99 Heal potions and keep your HP up to the maximum. Powerful enemies attack at the deeper levels, some of which can't be escaped using Run. The fighting warriors will inflict damage along with a mage's ice spells. Only use ICE and ICE2 in critical battles. Also, don't waste time checking every room. Just a few (noted in captions) contain items worth the cost in HP to get them. If you have to backtrack, avoid places where you were attacked.

Before entering Kary's lair in the bottom left corner, max out your HP and Equip with your most powerful weapons and armor. Against Kary, use AFIR to reduce the damage of her fiery attacks. SLEP, STUN and ICE2 also work. Boost your Fighter with FAST.

In the middle left chamber of Level 5 you'll find the Flame Armor. The other chambers, except Kary's, are all empty. When you go to battle Kary, use the powerful Ice Sword and the Flame Armor on your lead Fighter.
ICE CAVE

North of Gurgu Volcano and accessible only by canoe lies the perilous Ice Cave. Your goal is to find the Floater stone, which is used to raise the airship. Your strategy is similar to that used in the volcano. Use a House before entering and carry a full supply of Heal potion. Fire spells will be very effective inside. Beware of Ice Dragons and Mages!

LEVEL 1

In the upper levels of the Ice Cave you'll encounter Wraiths and other undead enemies. FIR2 and HRM2 work well against them. Avoid the damaging light colored icy patches. On the second level, go down then left to reduce the chance of meeting the Mage, who might use the RUB spell.

LEVEL 2

LEVEL 4-A

LEVEL 3

LEVEL 4-B
RYUKAHN DESERT

In ages past a fantastic flying ship was buried in the sands of the Ryukahn Desert. With the Floater you can raise the airship and use it. While airborne, no enemy can attack the Light Warriors. On the other hand, you can land the airship only on grassy land, so you'll still have to make treks through forests and deserts to reach certain vital locations in the north. It's also easy to visit Coneria's inexpensive Inn.

Go to the middle of the desert and use the Floater on your item list. Once it appears, stand on the airship and push the A Button to launch it.

THE CARDIA ISLANDS

These islands are inhabited by a race of friendly Dragons. Enter each cave, talk to the Dragons and collect treasure. Your next quest will be revealed to you. If you succeed in this task, return to the Dragon King with proof of your courage and your party will be transformed into knights and wizards with superior powers.

Bahamut, King of the Dragons, will ask you to prove your courage. Since you can land only on the grass, you might have to hike to his cave.

CASTLE OF ORDEAL

LEVEL 4

Northeast of the Cardia Islands is a castle filled with dangerous enemies. To prove yourself worthy of Bahamut's gift, you must enter the castle and find the Rat's Tail. The enemies are very strong, so make sure your supply of Heal potions and magic levels are full. You'll have to park the airship on the peninsula to the west, which leaves a long hike. Use a House outside the castle to restore lost HP and magic.

Watch out for Sorcerers, Mancats and other strong enemies.

LEVEL 2

Make your way to the upper left chamber and touch the throne. Now follow the numbers on the map to the right, touching them in the order shown. On Level 3, use the arrows to find the long path to the final chamber. The map is kept. The math is kept. The math is kept.
ONRAC

New mysteries are introduced when you reach Onrac and speak to its citizens. Some of them talk about a problem at the Waterfall to the north, others about a Sea Shrine, and there's even talk of a Caravan out in the Western Desert. They're all revealing clues. You see, to use the submarine moored at Onrac you need Oxyal from the Fairy who is for sale in a bottle. That's just for starters. Each time you finish a task, people may have new information for you.

GAIA

Gaia is hidden away in a remote northern valley. Land nearby on the grass and check it out. You'll find the Fairy's pond, but the Fairy has been kidnapped by a ruthless pirate who sold her to a Caravan. Aha! If you buy the Bottle from the Caravan and bring it back to Gaia, you'll get Oxyal for the sub. Simple! Actually it's just the beginning. As always, listen closely to what the people are telling you. In Gaia some talk about a town down south where... a different language is spoken?

LEFAIN

Depending on whether you found the Slab in the See Shrine, and if you took it to Dr. Unne, a trip to Lefain might not do much for you. Only Dr. Unne can teach you the language and he can only do that if he can translate the Slab. Once you can talk to the people of Lefain you'll hear all about the desert and...
THE CARAVAN
In the northern part of the Western Desert is a small oasis where a caravan has set up shop. Go to the patch of sand just west of the oasis to find the shop. Only one item is for sale here, but it's vital that you purchase it, even at the extraordinary cost of 50,000 gold pieces!

THE SEA SHRINE
This submarine the Oracac will take you directly to the Sea Shrine when you have Oxyl. Long ago the Shrine sank and was taken over by Kraken—the Fiend of Water. Inside the Shrine you will find Mermaids who will help you and many enemies to fight. Your best attack magic against sea monsters will be LIT2 and LIT3. The Ice Sword is still the best weapon for Knights, and if you have a Blackbelt, make sure he uses only his hands.

LEVEL 3-A
The first area of the Shrine is actually the middle—Level 3-A. Go up to Level 5 to meet the Mermaids and down to Level 1 to battle Kraken. Between trips, go to the Inn at Oracac.

MEET THE MERMAIDS
The Mermaids will shower you with information and treasure. They also have the Slab for Dr. Unne. Visit them before your attack on the evil Kraken.

LEVEL 4-A

LEVEL 4-B

LEVEL 5
LEVEL 2-A

What goes down must come up, at least part of the way if you want to reach Kraken. Take a good look at these maps to plan your route. Attack Kraken with LIT3 and use both FAST and Opal Armor to boost the power and resistance of your fighting warriors. Be prepared to lose a couple of warriors in the battle.

LEVEL 2-B

THE SLAB

The Slab contains a valuable translation of Lefeinish—which is the language of the Sky Warriors. You'll learn about them back in Lefein, where you can now understand what people are saying.

LEVEL 1

IT'S NOT OVER YET

Although the Light Warriors have come far, the greatest efforts are still ahead. The Waterfall Tower is the next stage of your adventure. Tips are placed.
July/August Contest

Is there such a thing as too much treasure? We don’t think so, especially when it’s so much fun to find. In the last Final Fantasy Treasure Quest we asked you to send in the answers to three questions. This time there are only two questions. Read the rules below to learn how you can enter. You may wind up with one of 500 Final Fantasy Adventure Packs, each stuffed with treasure. Or you could receive one of two authentic suits of armor—as much fun as a stuffed armadillo but more stylish! And still to come, in the September contest you’ll have a chance to win the Grand Prize—an exotic Treasure Quest Weekend!

July/August Contest Rules

Include answers to both questions for the July/August Contest on a 3x5 postcard and mail it to the address below with proper postage by September 1st. (The post office will not deliver any mail that doesn’t have proper postage and no responsibility is assumed for lost, stolen or misdirected mail.) Be sure to include your address and telephone number on your entry card. Contestants are limited to one entry per contest. All entrants must be U.S. residents.

Winners are randomly selected from entries correctly answering the 2 contest questions for the July/August contest. The random drawing for 500 Final Fantasy Adventure Packs and 2 suits of armor will take place on or about September 15, 1990. Winners will be notified by mail. By acceptance of their prize, winners consent to the use of their names, photographs, or other likenesses for purpose of advertising or promotion on behalf of "Nintendo Power” magazine and Nintendo of America Inc. without further compensation. Chances of winning are determined by the number of eligible entries received. No substitution of prizes is allowed. All decisions made final. Limit one entry per person.

In June, Nintendo Power asked you to name the Ex-Mermaid. The correct answer was Welkin. This month we ask: Where do you find an Inquisitive Broom?

Gee, do you think you forgot anything?

I always say it's best to be prepared.

Rumble

Then you'd better prepare for a headache!

Hey, those are the guys from Super C!

I thought there was something familiar about this place.

What's wrong with you guys? You should be blasting aliens and saving humanity.

Yeah, well you look pretty alien to me!

Name the capital of Kansas? No alien would know that.

I thought you two were supposed to be faster and bolder than anyone. But you're not even faster than a boulder!

First it was robotic guns, then aliens with jet packs and now these blasted rocks! I'm beat.

Lost your nerve, eh? Good thing I have enough for all of us.

That's true. He has a lot of nerve.

Come on, let's rock and roll!

He must be very brave, or very stupid.

Wichita!

It's been a rough day.

Hi!

I suppose we could try to catch him with my blanket?
I think he's going to hit further to the right!

No, I think he'll hit over here!

Hold on, I have just the thing!

This blanket will never hold where did you get it? Rag & Us?

No, I got it at a thrift shop.

Listen guys, take two steps to the left.

Thrift shop? You must mean flea market!

You never know when surveying instruments will come in handy.

Come on, I'll show you how to get past those rocks.

This guy is better than an advantage.

Yeah, he has a turbo mouth.

If you jump straight up here, just to the right of where the boulder falls, it will miss you every time. But first you should make some preparations.

I should have prepared earplugs.

It's vital that you test the direction and velocity of the wind. Then make sure that all loose objects are secure. After that, check your straps.

Finally, make a strong double knot of the shoelaces.

Shut up, just do it!

I'll bet Mr. Preparedness didn't plan on fleas.

We did it! We did it! Thanks Howard!

That's why I put flea powder on my bow tie.

Typical, he takes the credit and all I get is fleas.

Nice shoes.
TEENAGE MUTANT NINJA TURTLES SEQUEL
Turtlemania hit the CES at the Konami/Ultra display. We got a chance to take a sneak peek at an early prototype of Teenage Mutant Ninja Turtles—The Arcade Game, which is actually the title of the NES sequel. The half-shell heroes have a whole lot of excitement in store for you in this one, which has two-player simultaneous play and three levels that weren't in the arcade game! Kowabunga, dude!

MEGA MAN III
In this sequel, Dr. Wily will join the side of good and help Dr. Wright with a top secret project. Mega Man's mission will be an interplanetary scavenger hunt for parts needed for the doctor's project. The same development team which designed the first two Mega-hits is sure to strike gold again.

MIRACLE KEYBOARD
One of the big surprise releases at the Summer CES was the Miracle Keyboard (from Mindscape & Software Toolworks). This amazing accessory comes complete with an electronic keyboard which plugs into your NES and provides a full range of musical sounds. The Miracle Keyboard is also a truly educational device. Crowds of spectators gathered around the display, and this unit should be hot!

DR. MARIO
Mario, the world's versatile hero, is back in a new Nintendo game, Dr. Mario. This time, he's out to wipe out a pesky virus colony. Dr. Mario is a super puzzle game like Tetris. Two players can join in the frenzy of Dr. Mario, and for even competition between players of different skill levels, each player can start with a different number of viruses. If you have Tetris fever, Dr. Mario is the cure!

POWER MISSION
Mega action in the tradition of Mega Man II.

DEJA VU
A sequel to Shadowgate? Deja Vu features the same great game play, but with a modern day detective story background.
the hot games for the winter holiday season are announced and displayed. Here's a quick look at some of the games and products we thought were particularly cool:

THE SIMPSONS ARE COMING TO THE NES!

The dynamic duo of Acclaim and LJN (recently merged) have some hot titles in the works, including a NES game based on The Simpsons! Yes, that's right, everybody's favorite nighttime animated comedy family, The Simpsons, will star in a NES game early next year. Bart Simpson discovers that his town is being invaded by aliens disguised as humans. He must go around and convince his neighbors that these innocent looking people are actually invaders, while trying to avoid having a cow, man.

BEETLEJUICE

NES and Game Boy games starring that kooky spooky spirit, Beetlejuice, are on their way from LJN!

GAME BOY

TECHNIQUES TO REMEMBER

THROW THINGS IN ALL DIRECTIONS
Remember that you can toss Crates and other stuff left, right and straight up. Overhead enemies are no problem when you use an air attack.

TAKE IT SLOW
There’s no backtracking allowed so you should advance slowly and make sure that you leave nothing behind.

KEEP TABS ON THE FLOWER TOTAL
When you collect 50 Flowers a 1-Up Star floats onto the screen. Keep track of your total Flowers and make sure this happens at an opportune time.

KNOW YOUR ENEMIES
All of the creatures follow basic patterns. Study the ways they move and catch them off guard.

WAIT! THERE’S MORE!
After you clean out Zone G, you’ll rocket to another area!

UP NEXT...
Take on a cast of crazy crabs and Flying Squirrels in the Zone H maze of pipes and blocks.

Electric fans make for windy conditions in Zone I. Watch out for Crate spitting Pelicans, too!

YOU’RE NO MATCH FOR ME! HA!

GO GET ’EM RESCUE RANGERS! FAT CAT’S WAITING!

Unload on enemies upwards and win big!
Back behind enemy lines, Solid Snake has his work cut out for him. The toughest commando since Rambo is on his own, although he might get a little help from his friends. To win through to the end you'll need cat-like reflexes and at least nine lives. Luck helps.

Your job in the jungle is to rescue the two prisoners and get into the building. Collect rations far to the left first, then go after the prisoners and the ammo. When you get near the lower door you'll see a Call message flashing on your screen. Switch to Transceiver and get your message. Then watch and wait. The Call message flashes if you approach the door on the lower part of the screen.
**INSIDE THE WAREHOUSE**

Once inside, grab both key cards then find the Truth Gas. Free the prisoners and use the Truth Gas on the enemy commander for information. You'll need nerves of steel and a quiet step to stay alive.

Keep out of sight of the patrolling guards if at all possible.

**GET CARD #1**

In the open door shown to the right you'll find Key Card #1.

**BEYOND THE WAREHOUSE**

After surviving the warehouse you might think you deserve a rest. No such luck. The elevator takes you to a sideview area where you'll fight off more attackers and use your Oxygen Tank underwater.

You are close to the ship now.

In this long passage you'll have to take on attacks from both the front and the rear. The Submachine Gun can help. To make it past the underwater section you'll need to have found the Oxygen Tank back in the warehouse. Don't use Plastic Explosives or Grenades in this area.

**ALL HANDS ON DECK**

The enemy ship is swarming with guys who would like to ruin your day. You're going to try to blow it sky high, but first get the items shown on the maps, rescue the prisoners, use Truth Gas on enemy officers and stay alive. As usual, that's easier said than done. Lots of practice helps.
TACKLING THESE GUYS

They may look like the front line of the Chicago Bears but they're tougher by far. Your only way past them is by throwing Grenades, and each throw must be perfect.

The Submachine Gun and Hand Gun will work, but it takes more ammo than you're likely to have.

Once the ammo dump is blown using Plastic Explosives you'll only have a short time to get away. Go back up to the deck and use the door to the right of where you found the Flare Bomb. Keep moving to the right to escape.

These three guys try to defeat you with Grenades, which is fair enough because that's how you can defeat them. Again, the Grenade must be perfectly thrown.

On the lower level of the warehouse you'll find even more trouble. Long narrow corridors are tough to pass. Sometimes you can wait for a guard to turn away or you can hide while he comes closer. Try to be invisible.

THE DUKE OF SECRET AGENTS, GOLGO 13, IS BACK IN A NEW NES EPISODE!

Need a world endangering scheme failed? A hit on an impossible target? A fantastic rescue made? If you can contact him, and if your case fits his eccentric code of ethics, Golgo 13, the top "troubleshooter" in the world, is your man. When a revolutionary group known as Mafat takes control of a deadly satellite capture system and starts a dangerous war between secret agents, the CIA persuades G-13 to take the mission of stopping their plot. His assignment: rescue the kidnapped professor, Dr. Barrows, destroy Mafat's organization and smash the satellite capture system!

ACT.1 PROLOGUE IN PARIS

SCENE 1

According to CIA intelligence, Mafat holds Dr. Barrows prisoner somewhere in Paris. Before G-13 begins his search for the professor, he requires a gun that is untraceable. The CIA arranges for G-13 to pick-up of a high powered Python pistol at the Arc De Triomph.

MARTIAL ARTS ACTION

Duke Togo must put up his dukes and brawl his way to James, his CIA contact man. Mafat agents along the Champs Elysees have been alerted that G-13 is on his way, and have been ordered to stop him.

G-13's powerhouse kick renders the opposition unconscious.

Eagle close to gun toting thugs, duck under their fire, and use your kick.
SCENE 2&3
Once he's obtained the Python, G-13 can blaze a trail through the agents who are trying to stop him. Another CIA contact in the art museum on the Champs Elysees has a code card which will bypass the electronic security system in Mafat headquarters. With this card, G-13 can enter and go freely through the building.

The doors along the Champs Elysees lead to 3-D mazes where G-13 can replenish ammunition. Going in and out also resets the timer.

Shoot enemy agents as soon as they appear on the edge of the screen.

As an Olympic class athlete, Golgo 13 can make spectacular leaps.

SCENE 4
Mafat holds Dr. Barrow captive in the Trade Office on Bastille Boulevard. This imposing structure is four floors high, and G-13 must explore it in a puzzling 3-D perspective maze.

WHERE'S YOUR HALL PASS?
Follow the maps carefully; it's easy to get lost in this place. A fourth floor guard gives you a first aid box when he's defeated. Defeat this guard, collect the first aid, back track, and return. The guard will be there again; repeat the process to fully power-up.

SCENE 5&6
On the top floor of the Trade Office, Arm Of Mafat, a sword wielding martial artist and high ranking Mafat boss, gloats to Golgo that he has arrived too late to rescue Dr. Barrows. To compound the problem, he wants to have a quick sparring match with G-13—to the death!

ARM OF MAFAT
To beat Arm Of Mafat, rush him when he's at the very edge of the screen. Kick him repeatedly and he will be trapped against the edge of the screen.

A RACE AGAINST TIME!
Upon his defeat, Arm reveals that the Trade Office is rigged to explode! Golgo 13 must make his way out quickly, with only five minutes to get through all four floors! Follow the maps closely and don't take a wrong turn.

Straight karate kicks will break the Arm Of Mafat in no time!
**ACT.2 ESCAPE TO VENICE**

**SCENE 1**
After avoiding Mefat's death trap, Golgo 13 is cornered by Gerbich, Chief of the KGB, who demands to know G-13's role in the ongoing conflict. Golgo 13's code of ethics prevents him from revealing any information. As Gerbich leaves, James appears and tells Golgo that someone escaped in a helicopter from the Trade Building to Venice, Italy...

**SCENE 2**
Golgo 13 is rescued from the KGB by a girl from the CIA in a souped-up Ferrari. This well-nigh invulnerable car is armed with bombs and has a top speed of 300 km/hr.

**SCENE 3**
Gerbich, outraged at Golgo 13's refusal to cooperate, attacks the Ferrari from a helicopter. But Golgo has a high-powered rifle and can nail Gerbich first; however, he'll have to do it with a single shot.

**ACT.3 IN VENICE**

**SCENE 1,3,4&6**
With Gerbich gone, the KGB pursuit falters and G-13 makes it to Venice. The thugs in the city are tough and attack swiftly, throwing bombs or knives. G-13 will have to travel these streets many times before he meets up with James, obtains an S&W M56 pistol and has time for some evening rest and recreation.

**SCENE 2&5**
The only way to get through the twisting streets of the City of Canals involves a side trip through this building. Stick to the path that goes around the edge of the place.
THE ORIENT EXPRESS

SCENE 1&2
Tipped off by information provided by the CIA, Golgo 13 is hot on the trail of Armad Khan, a terrorist who may be mixed up with Mafat. G-13 books passage on the same train Armad is on, but this isn’t a pleasure trip. Armad’s killers are on the roof of the train, and are spoiling for a fight with Duke Togo.

ARMAD KHAN
Corner Armad against the edge of the screen and kick repeatedly.

AFGHANISTAN AND BEYOND

ACT.4

From Armad Khan, G-13 learns that the Mafat base is somewhere in Afghanistan. But before Armad can reveal its exact location, an assassin in a helicopter eliminates him. G-13 begins his search in the wild, mountainous desert of Afghanistan.

SCENE 1&2
Rugged humans and strange creatures inhabit the remote areas of the Afghan desert. These beings move fast and usually take several hits to eliminate.

SCENE 3&4
By a stroke of luck, Golgo 13 has stumbled upon a mysterious cave in the desert. Could this lead to Mafat’s Base? There’s only one way to find out.

SCENE 5
Deep in the earth, death brews in Mafat’s laboratory. The final secret hideout is a challenging labyrinth that will test every ounce of Golgo 13’s leaping and shooting skills.

SCENE 6
A final 3-D building to conquer—the end of Golgo 13’s mission lies beyond this cellphone.

Will Golgo 13 smash the plans of the Mofat Revolutionary Group? Or will this be the first mission that he’s ever failed to complete? The answer is up to you!
In the fantasy world of Solstice, a new game from CSG imagesoft, the evil wizard Morbius has taken a fair princess prisoner. Her only hope for rescue is Shadax the Sorcerer, who must find the pieces of a mystic staff in order to gain the power needed to defeat Morbius. Shadax learns the shards of the staff are hidden in the many rooms of Kastlerock, an ancient fortress of sinister disposition. Solstice follows the action as Shadax explores this castle, one of the most puzzling and unique fantasy locations in video games.

Shadax Tackles Kastlerock Solo

- **Purple Potion**: All moving objects in a room are disintegrated by this potion.
- **Yellow Potion**: The Guardian Of Time freezes time for all moving objects.
- **Green Potion**: The Eyes Of The Blind lets you see invisible objects in a room.
- **Magic Ellin Boots**: A magic pair of footwear which allows Shadax to jump higher.
- **Hats Of Life**: Hats Of Life give Shadax an extra life. He can and should collect many.
- **The Four Keys**: Keys make blocks appear in certain rooms or make doors appear in walls.
- **Detonator And Bomb**: These magical triggering devices explode bombs, opening new areas of the castle.
Kastlerock can be confusing at first, but it's a fantastic and unique gaming environment. Take the time to master Shadax's moves and whatever you do, have courage; only you can save your world!

**Mystic Methodologies**

**BLOCKS ARE SHADAX’S SALVATION**

The blocks Shadax finds can be used in many ways. You can jump on the large pyramid spikes by placing a block on the spike and jumping on the block. (But even blocks won't protect you from the needle spikes.) You can also travel on the head of a creature by placing a block on its head and then jumping on the block. (But some creatures can knock the block off their head after a time.)

**JUMPING TRICKS**

Using blocks, you can jump 3 blocks high before you get the boots, and 4 blocks high after. Pick up a block, jump, and quickly drop the block in mid-air and jump again. Activate a Yellow Potion, and you can cross a room in mid-air by picking up a block and jumping at the same time (press A and B simultaneously), then quickly dropping the block (press the B Button again). Repeat the process to travel up and/or across.

**UNORTHODOX USES**

Potions and Hats may be pushed like blocks and used as stepping stones, but pressing B will collect the object. If you use both the Yellow and Blue Potions in the same room, you can use creatures like blocks and stand on them, but you can't pick them up.

**Plot Your Course With The Magic Map**

The subscreen map lets you know where you've gone, and also indicates the locations of secret entrances and of rooms above and below the one you're in. Rooms shown on the map with a white outline have areas above and/or below them that are worth your while to explore. Floating blocks that move will take you to an upper or lower room. Be careful not to vaporize them with a Purple Potion.

**Wear Out Abobo**

This guy is strong! The only way to beat him is by punching and running. Eventually, you'll wear him down.

**Mission 3**

Continue your mission on a wooded road and watch out for enemy ambushes. You're on your way to the headquarters.
Knock out the competition with a mix of punching and kicking moves that make them wish they'd paid more attention in Black Shadow Warrior training. The basic Punch and Kick are your meat and potatoes while you learn to make some fancier moves. After a couple of good straight punches to the same enemy, you'll knock them to the ground with a powerful uppercut. Let loose an Elbow Punch by changing direction while swinging. When you've got your opponent by the hair, change direction and you'll toss them over your shoulder. To jump kick, push the A and B Buttons simultaneously. Master these moves and you'll be a force to be reckoned with.

Wind your way around a series of ladders and moving platforms to battle with a Chintai Warrior. You'll have to perfect the Two Button Jump Kick at a moment's notice to get through this section of the city.

Lindas like to hang out on this bridge. Jump first, then let your fists fly.

Fortress Of Fear™

This New Version Of Wizards & Warriors For Game Boy Will Knock Your Armored Socks Off With Fun And Action

Kuros, the hopping hero from two NES versions of the hit Wizards & Warriors series, leaps into action once more. Amazingly, the action is very close to the NES games. Kuros climbs to new levels and battles enemies with his sword. Keys and treasure come in handy along the way, and at the end the evil wizard, Malkil awaits.

STAGE 1-0

From the start, work your way back to the left to claim the key. Take care when jumping onto the cloud.

To successfully leap across some of the wider gaps, stand on the lip of the ledge. Watch for enemies and arrows, too. Jump above an arrow or duck to avoid being skewered.

STAGE 1-1B

To cross over wide gaps, jump to the platform then move to the far side. If the platform goes below the screen, you can still land on it.

Bats In The Belfry
When the Bat comes head on, drop to a lower ledge to avoid its first Attack, then jump up to the ledge where you enter the stage and stab at it.

STAGE 1-2

STAGE 1-3

TO NEXT STAGE

NINTENDO POWER
Kuros must stay on his toes to survive the Fortress of Fear. His most critical skill will be accurate jumping. A few tips can help.

1) For long jumps, stand on a ledge so Kuros’ toes stick over the edge.
2) Leap to a platform when that platform is moving down.
3) Defeat monsters that could get in the way before you jump.
4) Make maneuvers in the air.

Cloud hopping can take you where you want to go. On the cloud below, jump to the lower ledge for an extra life.

Further Into The Fortress

The fun has just begun for Kuros. Ahead lie many challenges. Remember to collect keys and open treasure chests. The items you find will help you reach Malkil.
A great Tower casts its shadow on the land. Legend says that this Tower leads to Paradise, but no one that has entered has ever returned (Would you?). The time has come for you to scale the Tower and find out for yourself if Paradise exists. Princes in the four largest floors hold the keys to the tower doors. Form a party of four adventurers and find a way to collect the keys.

NEW TITLES

CASTLEVANIA III
MANIAC MANSION
MISSION: IMPOSSIBLE
Konami is bringing one of the greatest NES adventure settings back to the NES this fall in Castlevania III: Dracula's Curse. Set 100 years before Simon's Quest, an ancestor of Simon Belmont has been summoned to foil the Count's plans in the 15th Century. Although it resembles the original Castlevania at first glance, Dracula's Curse has better graphics, sound and best of all—a huge new world full of hair-raising creatures to explore!
Friends Of The Family

A century before Simon’s heroic deeds, the Belmont family has been driven out of Castlevania. But when Dracula returns through evil sorcery, the people call for a hero. A lone member of the Belmont family remains in Castlevania, an ancestor of Simon, Trevor Belmont. Although he starts out his quest alone, he will encounter three unique and powerful friends to help him defeat Dracula.

TREVOR BELMONT
Heroic Master Of The Whip
The valiant vampire-hunting tradition of the Belmont family is carried on by Trevor Belmont, a tough fighter with a heroic heart. Trevor boasts no ill will towards the people of Castlevania for disowning his family, and sets out to rescue them.

GRANT DANIETY
Well Climbing Thief
Once a thief, Grant honed his wall climbing and acrobatic skills to superhero levels. Now a hero, he fights using a needle sharp dagger, which although not a powerful weapon, gets the job done.

SYPHA BELMADES
Mysterious Wizard
Sypha commands the very elements through the use of magic. Her attacks using magic-based fire, ice and water, like most students of magic, Sypha is physically weak, but the might of her spells makes up for this in battle.

ALUCARD
Rebellious Son Of Dracula
Even in the 15th Century, teenagers had parent problems. So why should the son of Dracula be any exception? As Alucard helps Trevor, he attacks by flinging fireballs, and like all vampires, he can turn into a bat.

More Super Features Make Castlevania III A Winner!

After you complete an area of Castlevania, you’ll be given a choice of routes to take. And at certain points in the game, you’ll meet one of your friends, who you can take with you on your adventure. After you meet another character, you can switch from Trevor to that character and use his special powers.

CASTLEVANIA III’S PASSWORD SYSTEM IS SOMewhat SIMILAR TO THAT USED IN MEGA MAN II, IN THAT IT USES A GRID WITH SYMBOLS ON IT INSTEAD OF LETTERS AND NUMBERS. WITH NO LETTERS TO CONFUSE OR MIS-COPY, IT MAKES ENTERING YOUR PASSWORD CORRECTLY A CINCH.

TAKE ANY ROAD YOU LIKE, BUT BE SURE TO EXPLORE EVERYWHERE!

Before you enter the symbols onto the password grid, you’ll have to enter the name that matches them.

“SO, MORTAL MAN AGAIN FOOLISHLY PITS HIMSELF AGAINST MY UNDEAD FORCES. AS I DEFEATED ALL THE OTHERS, SO SHALL I DEFEAT YOU AND YOUR PUNY HELPERS! YOU HAVE BEEN WARNED. TREVOR BELMONT.”

Dracula
Whenever you’re dealing with extra-terrestrials it’s a good idea to bring a photographer in case things develop.

Some Earth girls may be easy, but Sandy’s no pushover. As a cheerleader it’s her job to be optimistic.

He had a few piano lessons as a kid and now he wants to open for Madonna. He may never get the chance, though, unless he can make a totally excellent demo tape and keep from becoming tentacle bait.

If Sandy hadn’t been kidnapped, Dave would never have discovered that he was a hero or that aliens love Pepsi and waxed fruit.

From the day he converted his Walkman into a useless pile of components, he’s been trying to put things back together.

What’s a gnarly dude like Jeff doing in a place like this? Not catching mondo waves, but fixing phones.

Wendy plans to write a Pulitzer Prize winning memoirs. Along with Syd, Razor wants to start a band and rock the galaxy. After all, music is a universal language.
Maniac Mansion—the diabolical creation from Lucasfilm Games and Jaleco. It’s a lot of stories wrapped up in one game and the ending is determined by your actions. It’s Cut Scenes and an interface based on words (not buttons). It’s horror and humor and hamsters on toast!

In Maniac Mansion characters can do almost anything real people can do. The uniquely interactive control is based on word commands. By pointing at command words or objects or directions, you tell the character what to do.

Strange tastes and broken machines aren’t the whole story in Maniac Mansion. The use of Cut Scenes shows you what’s going on in other parts of the house, and many scenes may reveal secrets, that is if you think like a programmer from Mars.

THE MANIACS

Who are these people and what are they doing with their lives? That’s what Dave and his friends are trying to find out while rescuing Sandy and staying alive.

Nurse Edna
More attractive things have been found growing in industrial waste, so do yourself a favor, just talk to her over the phone.

Weird Ed
He’s worried about his dad and wants to help by staging a commando raid on the house.

Dead Cousin Ted
The thing about Ted is that he’s actually dead. So what’s he doing in the tub?

Green Tentacle
He’ll be bigger than Elvis, if only his music is discovered. Thing is, he’s terribly shy and insecure.

Purple Tentacle
He’s Dr. Fred’s personal pet and he doesn’t take kindly to interfering, humanoid teenagers.

Meteor
He has a chip on his shoulder the size of a rock. What does he have against humans?

Dr. Fred
There’s something seriously wrong with Dr. Fred. Like what’s he doing to the cheerleader in his laboratory with the Zom-B-Matic machine?

Solving problems is a matter of looking for relationships. Some problems can be solved in many different ways, all of them weird.

To develop a photo, you’ll need developing fluid. Use the sponge to soak up the spilled fluid.

MORE MADNESS...

...is coming in a future issue. Until then, don’t talk to Edna alone!

If you get too close to the strange pods in this challenging stage, aliens will emerge and attack. To make sure that they never come out, position yourself on a ledge before each pod and fire at them with the Spreader. There will be explosions if you're on target, but no noticeable damage to the pods. Continue to fire for about ten seconds. When you approach the pods after this barrage of fire, you'll find that the aliens inside have been defeated.

If you have found a passage behind the Throne of the King, you are very close to the heart of the Castle Shadowgate. You'll find a door to the right in the room of stone Gargoyles. Enter this passage and you will go to a room flowing with lava. In that room, recite the spell of Motari. If you don't have the spell of Motari, return to the Library and read the books while using the Glasses that are in the desk. After you recite the spell of Motari in the lava room, a bridge will appear and take you to a room with three Levers. If you use the Levers in the correct order (which is illustrated on the stairs in the Sphinx room) you will receive the Silver Orb. Return to the Gargoyle room once you have the Silver Orb and blind the Gargoyles by reciting the spell of Illumina.

Then pass under the Gargoyles and go to the left. In the next room you'll find a well. Toss the Big Coin, which you received at the look-out point, into the well and ride the wind down to the bottom!
HOW DO I EXIT HIDDEN ROOMS WITHOUT BEING AMBUSHED?

Our mission through the hostile South American jungle is riddled with dangers at every turn. Weapons, ammunition and prisoners wait behind revolving doors. While you're checking the hidden rooms, enemies can sneak up and attack when you come out. To make sure that you emerge from the rooms at opportune times, press and hold Up on the Control Pad to stay inside and then release to leave when the coast is clear. This way, you'll be able to turn the tables and catch your enemies off guard.

THE MAGIC OF SCHEHERAZADE

The Fire Palace is in Chapter Four. You'll have to travel into the Past to find it. The only way to enter the lava pit that surrounds the Fire Palace is by wearing the Holy Robe. Find Gubibi in the Palace in the Present to receive the Holy Robe. Then go back to the Past, sink into the lava pit and explore the Fire Palace. The Salamander in the Palace can only be beaten by a Magician. Change into a Magician using the Moscom in the room located to the left of the Salamander. Return to the Salamander and use the Crystal to defeat it.

How Do I Defeat the Dual-Container Alarm in Stage 4-4?

At the heart of the abandoned Laboratory you'll find two heavily armored vehicles working together to defeat all intruders. In the corridor that leads to the alarm room, make sure that you jump up so that the ceiling is visible. Then stay on the right side of the Drop Claw, kneel and punch the dropped Bombs. Collect the items that the Bombs have left and Power-Up. As soon as you enter the Alarm Room, Wall Jump to the left edge of the center platform, face left and kneel. As the vehicles approach, punch them quickly. When the vehicles are on opposite sides of the room, drop down to avoid crossfire and then quickly return to the center platform. After you have defeated one of the vehicles, the other one will slide back and forth on the floor and shoot fire bombs upward. To combat this change in attack methods, drop to the floor, move to the far left and fire at the vehicle. When the vehicle gets close, punch rapidly and finish it off.

Jump up to reveal the Drop Claw and Power-Up

When you enter the alarm room, jump to the center platform

When one vehicle remains, hit the ground and attack!

How Do I Defeat the Firebug in Stage 5-2?

The incredible Firebug is all that stands between you and a one-on-one confrontation with the Joker. A fight with this creature is much more than a warm-up, though. He sends out super powerful bursts of atomic fire that will send you reeling. When you enter the room, the Firebug will charge. Stay on the left side of the room and fight him off with the Dirk. He will back off and throw Fireballs while jumping from the center of the room to the far right edge. Jump over the Fireballs when they get close and fire the Dirk when the Firebug lands. If you run out of weapons, move to the right slightly, continue to jump over the Fireballs and punch the Firebug when he gets close.

Fight off the Firebug as soon as you enter the room.

Jump over the Fireballs and use the Dirk!

Baseball, the great American pastime, has gained popularity around the world thanks in part to the Little League Baseball. To honor the 50th Anniversary of Little League Baseball, SNK created Little League Baseball Championships, a great new baseball game that’s similar enough to Baseball Stars to be a sequel (or “prequel!”) but has fresh features that make it a whole new ball game!

**PLAY CONTROL LIKE BASEBALL STARS**

If you liked Baseball Stars, you’ll enjoy the familiar play control of Little League. A new feature in Little League is the ability to shift players in the field, depending on the game situation, using a real managerial strategy. Even though you can’t see the fielders in the batting/pitching screen, you’ll know they’re in the right position.

**PLAY EXHIBITION OR CHAMPIONSHIP MODE**

Exhibition play lets two teams go at it for a single match, giving you a chance to get a feel for the game. In Championship Mode, you can set up a new series and pick which teams you control, and which are played by the computer. Of course, it’s also possible for two human players to go head-to-head. A password will save your standing in the series.

**POWER ANALYSIS MODE**

Before you pick the team you want to take to the championships, you can analyze the strengths of each of the 15 teams. In the Power Analysis mode, a graph will rate the team in Batting, Running, Defense and Pitching. In addition to the team analysis, each individual player on a team has a skill rating in batting and pitching. Following Little League rules, free substitution is possible, and any team member can play any position. If your pitcher gets tuck and the guys on the bench are weak, try substituting an infielder or outfielder.

For a real challenge, try taking the weaker Italian team all the way.

**WHO NEEDS ANOTHER BASEBALL GAME?**

Admittedly, there are many baseball games available for the NES, and many players already have favorites. But if you want a new diamond simulation with a slightly different feel and a touch of humor, try Little League Baseball.

Win Or Lose, Do Your Best! Play Ball!
If you watch television, you're probably familiar with the Spot, that mischievous prankster from the 7-Up commercials. In the ads, the Spot can pop up almost anywhere, so it was only a matter of time before it infested the NES. Arcadia Systems, a new NES licensee, is bringing out Spot, a board game style strategy challenge featuring the Spot.

**Simple Rules, Complex Challenge**
Spot's rules are simple, but the game's subtle strategy makes it complex. Opposing players attempt to dominate the board with their color of chips. Any time you place your chip next to your opponent's chips, all the chips bordering your chip will be turned to your color. The game is a see-saw battle for board supremacy.

**Select Options**
Several options are available to customize the game. You can place time limits on each player (5, 10, 20, or 30 seconds), change the skill level of the computer opponent and play with or without the animated Spot characters. It's a very versatile game!

**Humorous Animation Adds to Spot's Fun!**
As you play, you can choose to have an animated Spot character follow your moves. The Spot's 35 possible movements are smoothly animated, and the actual move the Spot makes will depend on your move.

**Four Can Play with a Four Player Adapter**
Spot makes a great party game when four players get together for a double head-to-head play. Spot can be played with up to four players, with any combination of human and computer players.

**Edit Mode**
Spot contains 512 pre-made boards, plus an Edit Mode where you can modify boards to create your own. Combine the ability to create boards with the other customizing aspects of the game, and Spot can provide an unlimited challenge.

**Find the Secret Spot Squares**
At certain points in the game, you will be given the chance to play the Bonus Machine. Line up three identical symbols—Spot, 7-Up, Cherry or Arcadia—and win prizes ranging from a free turn to a piece swap with another player. Give it a spin and win!
In the fantasy world of Dragon Spirit, a demon's reign of terror has plunged the people into despair. If this game followed the pattern of many action games, you would expect a muscle-bound warrior or sleek spaceship to come to this world's rescue, but no—the hero of this game is a ferocious fire-breathing dragon. From Bandai comes this faithful adaptation of the classic arcade “fly & fight” game, Dragon Spirit.

**PLAY THE PROLOGUE TO DECIDE YOUR SKILL LEVEL**

Start your new legend by reliving a battle from the past between your father King Arum and the demon Zawel.

**THE DEMON ZAWEL**

Shoot Zawel when his staff is raised and avoid his boomerangs.

**GOLD DRAGON MODE**

(For Beginners)

If you lose the battle with Zawel, you'll start the game as a Gold Dragon, skip most of the stages, and in the end you'll find the whole adventure was just a dream.

Get a cute dream ending in the Gold Dragon mode, then play as a Blue Dragon.

**TIP THE SCALES IN YOUR FAVOR WITH OPTIONAL WEAPONS!**

Even though you “fly” a dragon you can still collect optional weapons to make yourself more powerful. To reveal options, shoot flashing enemies or bomb the colored eggs on the ground.

- **POWER-UP**: Boosts your breath weapon's power.
- **HEAD**: Sprouts another head.
- **WIDE**: Returns your dragon to normal.
- **EARTHQUAKE**: Lets you spit earthquake bombs.
- **INVINCIBLE**: Grants temporary invincibility.
- **SPEED-UP**: Makes your dragon fly faster.
- **OPTION**: Creates two mini-dragons to help.
- **WIDEFIRE**: Turns your weapon into a fan of flames.
- **POWER-BOMB**: Spit bombs that destroy enemies.
- **EXTRA DRAGON**: Gives you another chance in battle.
- **SCORE-UP**: Awards you with bonus points.
- **POWER-DOWN**: Takes away some of your power.

**BLUE DRAGON MODE**

(For Advanced Players)

Defeat Zawel and play the real game of Dragon Spirit as a Blue Dragon. Battle through all nine stages, and you'll get a different, “good” ending. The Blue Dragon has less life force, for a more challenging game.

**AREA 1 THE PALEOZOIC ERA**

In this stage, an ancient turtle dragon spews flames at you from miles away. Give him a taste of your own fiery breath weapon.

**AREA 2 VOLCANO**

Avoid the geysers of flames in your path, and be ready for the attacks of living fire beings from the lava.

**AREA 3 JUNGLE**

Bomb the giant plant at the end of the jungle to defeat it.

**AREA 4 GRAVEYARD**

A giant skeletal dragon awaits you at the end of this desolate area.
A new experience in adventure gaming for the NES has been created by Taito. What's so new about Dungeon Magic? Just about everything. The view, for one, is exactly what the hero would see. By turning and moving, new vistas open up in real-time, and clues and dangers are revealed. In addition, the variety of magic spells is truly awesome. There is a spell for every situation—good and bad.

**FIGHT AND PARRY**
Both dungeons and overworld areas are teeming with enemies. Usually they'll appear a step or two ahead of you, giving you little time to react. Step back to Parry the first blow and look quickly around to see if other enemies are present.

**AROUND THE TOWN**
In Granville town you'll want to speak with everyone you meet. At first, it will be difficult finding your way. Watch your compass and follow the map below. Visit all the shops and wizards.

People in every town are a great source of information. Write down their clues.

**SEE THE KING**
Leave the town through the North Gate and walk to the castle. Inside, turn Left, Right, Left and Right again to reach the King and Queen in the center of the castle. There you are told to seek the great sword called Tores.

**MULTIPLE MAGIC**
Dozens of magical spells are yours if you help the wizards recover the lost swords of magic. By choosing magic symbols in different combinations, weave spells to attack enemies or heal your wounds.

**A GREAT CHALLENGE**
It won't be easy defeating Darces. At first, the hero's-eye view may be confusing. Make maps of all new areas and use the compass.
Here they are, the hottest scores around! If you'd like to share your best scores with the readers of Nintendo Power, send them in! You could be the next NES Achiever!

78 NINTENDO POWER
TAKE YOUR BEST SHOT!!

Do you ever wonder how you stack up against other NES players on your favorite games? You can check it out right here in every issue. We'll print all the outstanding scores we receive from our readers. Would you like to see your score in the next issue?

First, we need evidence of your great achievement, so be sure to capture it on film. For best results, use a 35 millimeter camera, turn off all of the lights in the room (make it nice and dark), and don't use a flash. Take a couple of shots, and send us the best one.

Some days do you just know you are going to be hot? Well, when you get that "ain't no stopping me" feeling, follow the Boy Scout motto and "Be Prepared." Get out the camera and make sure there's film in it, so you don't miss a golden opportunity to document your potentially record breaking accomplishment.

We want to hear from as many of you as possible. So, warm up your thumbs, crack your knuckles, rub the sleep out of your eyelids and get ready to score! Mail your photo, along with a note listing the game, your score, your name and address, to:

An ancient Chinese philosopher, Sun Tzu, once said, “If you know your enemy and you know yourself, you need not fear the outcome of a hundred battles.” The Ninja Gaiden II Strategy Guide reveals everything you need to know about Ryu’s Ninja techniques and the dark powers of his fearsome enemies.

A new skill Ryu has learned, the Body Splitting Power, takes the place of the mighty Jump And Slash technique.

You’ll find all the exciting cinema scenes recapped in the Strategy Guide.

Enemy behavior is broken down and analyzed, revealing weak points and giving you the edge in combat.
Each Nintendo Power Strategy Guide goes to the heart of a game, locating and uncovering all of its hidden secrets in one comprehensive 84 page book, with game maps to help you find your way and warn of hidden dangers. Super tips to boost your score and your chances of survival. Secret techniques for collecting extra lives. These are but a few of the things you’ll find not only in the Ninja Gaiden II Strategy Guide, coming in August, but in every Nintendo Power Strategy Guide.

SUPER MARIO BROS.3

Don’t miss out on this one! Even if you think you know the game, we bet you haven’t found all the secrets revealed in this Strategy Guide.

The evil Kelbeross Demon Dogs return, but you’ve beaten them before and you can do it again!
Walt Disney's Magic Kingdom comes to the NES with an adventure through five of the park's biggest attractions and a test of Disney trivia. Mickey Mouse needs your help to unlock the Castle and find the Golden Key to the Gate before he can start the big parade. Your journey to retrieve the six Silver Keys to the Castle will take you through Autopia, Space Mountain, the Pirates of the Caribbean, the Haunted Mansion and Big Thunder Mountain Railroad. As you walk from one attraction to the next, you'll find the last Silver Key by answering questions about Disney characters and movies. The game includes a number of different activities which vary in difficulty. Some are basic, while others will take a lot of practice to master. Gear up for a challenging adventure and make your way to the Magic Kingdom.
Blast off for a turbo charged rally through eight cities, from Key West to San Francisco, in an updated version of the NES classic, Rad Racer. This new treatment features easy to control steering, two kinds of music (or just the sound of the engine if you prefer) and a zero to 255 mph Turbo Boost. You'll send your car sailing from a standstill to maximum speed in seconds with this nitro-packed burst of pure energy. In each course you'll come across checkpoints that you must pass before your fuel supply runs dry. If you don't make it in time, the game will be over. You can get a second chance, though. When the title screen returns, just press and hold the A Button. Then press Start and you'll go back to the beginning of the most recently raced course!

Michael Andretti's World G.P.™ from American Sammy

Michael Andretti knows Grand Prix racing. He and his famous father, Mario, have been on the circuit for years. Now he brings his knowledge of race car driving to the NES with Michael Andretti's World G.P. from American Sammy. Join in on the excitement with 16 courses and four different cars. The action is shown with a split screen which will allow you to watch two players racing simultaneously, or look at your position on a map of the course when you are racing against the clock. The steering in this game is somewhat different from the steering in other racing games in that you must repeatedly press the Control Pad to rotate your car a few degrees at a time. This may ultimately give you more control but it does take some getting used to. One great feature is that Michael Andretti offers tips on each course. If you listen to his advice you'll know what to do at every turn before you take to the course and go for the trophy.
Strictly for fans of PC style text adventures, Wizardry is a quest in the Dungeons & Dragons vein. Make your way through the training grounds of the mad overworld. You can use already created characters or establish new ones with special skills. Make a map as you move through the 3-D maze and gain experience with enemy encounters.

Enlist party members | Fight foes in the maze. | Gain experience and gold

Explore 125 enemy packed stages in an action game geared for beginning players. Clear each stage of enemies using arrows and Elven treasures. Then grab the key and open the door to the next stage. There are some tricky places, so it pays off to look for hidden passages and to use the treasures wisely. Take your time and avoid enemy fire.

Clear out the enemies and grab the Key | The enemies come out in force in advanced stages

Play traditional pinball or go on a pinball adventure with this new game concept from Jaleco. Choose from three traditional pinball tables or select the unique RPG Mode. The silver ball bounces through a castle and knocks out enemies on a quest to save a princess. You control the action of the ball through the flippers. Defeat monsters to increase your attack strength and collect gold to purchase stronger flippers and extra abilities. It takes quick reflexes and fast thinking to succeed in your quest.

Clear out the enemies and grab the Key | The enemies come out in force in advanced stages
Here's the dilemma. You have $500,000 and in one month you must purchase a million dollar mansion to prove you're a success and inherit the family fortune. How are you going to come up with the other half million? Easy. Invest in the stock market! For a price you can get hot stock tips or learn about how the Stock Market works. Make sure that you read the newspaper for stock reports, then use your computer to invest. Try to make good decisions when new deals come up and use your time wisely.

**HEAVY SHREDDIN’**

Rip through runs on Poseur Peak, Scary Summit and Mount Mortified in a test of balance and control. Heavy Shreddin’ is snowboarding action with three different events. Begin with a downhill race against the clock. Then speed through the slalom where every gate must be negotiated for success. Finally, survive the obstacles of the backwoods courses and your run will be complete. It’ll take some practice to master the moves of the game but, with determination, you could be a snowboarding champ.

**BOULDER DASH**

Dig up the diamond mines and pick up precious gems in a race against the clock and menacing mine dwellers. If you’re quick and careful you can dig around the dangers of the mines and really clean up. There are a lot of similarities to Dig Dug here, only, in this game, you don’t have an air hose to inflate enemies if they get too close. You’ve got to rely on your own fast reflexes to dig yourself out of a jam!
BAD NEWS BASEBALL™

Bad News Baseball from Tecmo is an easy-to-understand baseball exercise with good play control. While regular play is somewhat basic in comparison to more advanced baseball games, something that does make this game unique are the super cinema scenes that are shown during close plays and home runs. One or two players can choose from 12 teams in regular play or two super teams in the all-star mode.

BATTLE CHESS™

Battle Chess takes traditional Chess one step closer to realistic combat. With each move, the pieces come to life and fight to gain ownership of the square. The piece that moves into the square will always win, but it is fun to watch the battle take place. If you want to have less time between moves, you can change the board.

JEOPARDY! 25TH ANNIVERSARY EDITION™

Gametek presents a new treatment of this classic gameshow on the occasion of its quarter of a century anniversary. The format is exactly the same as Gametek’s first Jeopardy! game, now with new categories, new questions (or answers in this case) and new contestants. Up to three can play and there are three levels of difficulty.

PICTIONARY™

Here’s a test of shape recognition and fast reflexes for the whole family. The object is to move your team’s playing piece across the board. You’ll earn a roll of the dice every time your team recognizes a shape that is drawn on the screen. Reveal shapes piece by piece or draw them on the screen while the others guess the identity of the object. The look and feel is similar to Nintendo’s Anticipation.
SILKWORM™

Choose from two different vehicles in a nine stage mission to take out the notorious MH-C2 computer. Pilot the G-Cobra Helicopter with twin cannons or drive the B-Panther Jeep with an adjustable machine gun. Two players can play at the same time with the jeep and helicopter or one player can go on a solo mission with either vehicle. Each stage features a confrontation with the MH-C2's super-charged robots. Travel over land and air with two-player simultaneous action.

IMAGE FIGHT™

Blaze through five levels of frenzied battle against high-tech alien forces with a super-charged fighter. The aliens are headed straight for Earth and only you can stop them. Pick up items to add to your ship's firepower and get blasting. The challenge is to master the use of special weapons and wipe out surrounding fleets of enemies.

THE LAST STARFIGHTER™

Soar over enemy spacecraft carriers and take out alien ships in a shoot 'em up inspired by the movie, The Last Starfighter. With variable speeds and the ability to change directions in an instant, your ship soars close to the carriers and lands once the enemies are gone. Watch out for tall sections of the carriers and fast fleets of enemies. This one is a real challenge from Stage One.

MECHANIZED ATTACK™

This new military mission can be played with either the Zapper Light Gun or the Standard Controller. Traverse heavy combat areas in a first person point-of-view battle. Choose your shots carefully. Extra ammunition and grenades are always in short supply. You'll need to be a steady shot with quick reflexes to get through the constant barrage of enemy fire.
When Lucasfilm is mentioned most people think of Luke Skywalker or Indiana Jones, not Dr. Fred and Nurse Edna. But they will, now that Lucasfilm is creating games for the Nintendo Entertainment System.

Unless you're a fan of PC games, you might not know that Lucasfilm Games has been designing some of the finest and funnest computer software since 1982. It's all part of George Lucas' vision to build a multi-media family entertainment company producing films, games, theme park attractions, musical recordings, special effects and innovative educational programs. To help stimulate the creativity of Lucasfilm employees, he built the company headquarters at Skywalker Ranch in an isolated valley north of San Francisco. It seems that Star Wars and Raiders of the Lost Ark were just the beginning of an empire.

As you might expect, Lucasfilm Games' releases emphasize the importance of storytelling. Steve Arnold, Vice President in charge of the video game division, says that Lucasfilm Games tries to present positive and creative problem solving within the context of a story. "We think that a game can be just as rich an entertainment environment as films or books, and that's what we try to achieve." Maniac Mansion, a PC hit since 1987 and now scheduled for release for the NES this Fall from Jaleco, is a great example. In fact the game has won many awards from PC publications and a TV show based on Maniac Mansion is now being planned.

But storytelling is only one side of the Lucasfilm Games equation. "My idea of the perfect game is one you can understand right from the start," says A.J. Redmer, head of the video games group. Pipe Dream from Bulletproof Software, a game A.J. helped create along with Tetris designer Alexey Pazhitnov, puts that philosophy to work. It's simple enough to learn in minutes, but so complex that it could take months to master.

Now that Lucasfilm Games is developing software for the NES, some of their programming ideas are being revamped. "One of the main differences between the NES and PCs is that the NES can do certain things much faster," says Doug Crockford, who is producing the NES version of Maniac Mansion. They also added rich, multi-leveled sound and a great surprise ending for PC fans of the game.

With everyone dedicated to creating quality games and entertainment of all sorts at Skywalker, you can almost sense The Force in the air.

The Lucasfilm Games team works on Skywalker Ranch, built by George Lucas as a creative community devoted to fun of all kinds.
Ivan “Ironman” Stewart

Whether he's racing on a radical off-road obstacle course, or blazing through a 250 mile non-stop desert race, Ivan “Ironman” Stewart really takes a pounding as he racks up racing wins. Ivan earned his nickname “Ironman” by winning punishing Baja races early in his career. He has had victories in many off-road races and numerous stadium events. With Team Toyota, he clinched the Manufacturers’ Cup for the sixth consecutive year in 1988. At press time, he was leading in points for 1990. Ivan visits arcades often to check and see if they have Super Off Road. He and his son Craig, 21, often compete to see who can get the fastest lap time. “Super Off Road captures the feeling of off-road racing,” says Ivan. “Super Off Road realistically captures the feeling of off-road racing,” Ivan says. “The trucks slide, jump and bang into each other just like in a real race. But you don’t have to worry about all the safety regulations and truck specification rules involved with the sport; you can just concentrate on having fun!”

Bill Elliott

“Awesome Bill From Dawsonville,” as he’s known by fans, is one of the best drivers in stock car racing. Bill Elliott and the Melling Racing Team hold many NASCAR records, including: the fastest ever 500 mile race, the all-time stock car qualifying speed record, the record for super-speedway wins in one year, and others. But not only is Bill a great racer, he is also a great humanitarian, working with the North Carolina Chapter Of United Cerebral Palsy.

Bill consults frequently with Konami on Bill Elliott’s NASCAR Challenge, (being developed for the NES) and Bill Elliott’s NASCAR Fast Tracks for Game Boy, in order to make the games super realistic. To analyze the driver’s point of view, Konami attached cameras to Bill’s car and had him race around a track.

AL UNSER JR.

Al Unser Jr. worked closely with Data East to come up with a winning game in Al Unser Jr.’s Turbo Racing. “In this game, players make some of the same decisions that professional drivers do when they compete in a race,” Al explained. “They select their pit crew, custom design their car and take on some of the world’s most challenging race tracks.” Al Jr. is himself a big Nintendo fan, and often plays with his family, especially son Alfred Richard Unser, 8, or Mini-Al as he’s affectionately known. Driving for Team Valvoline, Al has several Indy car race victories. Al Jr. also works for several good causes when he's not busy racing, including “People Who Know Say No To Drugs” and the American Coalition For Traffic Safety.

Michael Andretti

Michael Andretti, son of Mario Andretti, is coming into his own in the Indy Car circuit. He qualified for his first Indy 500 in 1984 (at age 22) and finished fifth, earning Co-Rookie of the Year honors. Through 1989 he has won nine Indy Car victories! He also helped American Sammy on Michael Andretti’s World GP, although he has little time to play the NES.
The Nintendo World Championships have undergone a name change to show that there's much more to this travelling showcase of Nintendomania than competition. Introducing Nintendo PowerFest 1990! Thousands of players have already participated, playing the hottest new games for the NES and Game Boy, talking to Nintendo Game Counselors in person and learning what the future holds for the NES. The Power Walk features new and upcoming games from 17 licensees including Castlevania III from Konami, The Punisher from LJN and many more. At the Super Stage, Game Counselors let players in on their most guarded game play secrets. There's also a magic show, a Power Pad demonstration presented by Reebok, the Nintendo Fruit Snacks Video Booth where participants can purchase a video of themselves dancing to a Super Mario Bros. rap and a lounge for parents to relax while the rest of the family sees the show.

Participants show off their semifinalist caps in front of the Competition Stage.

Game Counselors answer questions in the Super Stage Show.

Fans talk with Game Counselor Ben Smith.
Participants zip through Rad Racer on the Competition Stage.

A familiar friend welcomes visitors to the Nintendo PowerFest 1990.

It's a fun time for everyone, playing and competing.

Some Nintendo PowerFest 1990 attendees participate in the Nintendo World Championships, which are staged at the show. Competitors have six minutes to collect 50 coins in Super Mario Bros., complete the first track in Rad Racer and get as many points playing Tetris as they can in the remaining time. Three finalists from each city are invited to the national Nintendo World Championships in Orlando, Florida which will be held in December. Check your local newspaper to see if the Nintendo PowerFest is coming your way or call 1-900-HOT-4NWC (1-900-468-4692) for information. A charge of 50 cents per minute will be added to your phone bill, so make sure you have permission from whoever's paying the bill.

So many games, so little time. Eager players stroll through the Power Walk.

All the Summer and Fall releases we’ve been finding out about have really kept us Pak Watchers busy. In addition to all the great NES games, we’ve also noticed many exciting recent developments in other areas of video entertainment that we thought we’d let you in on. For a real insider’s look at what’s in the future for your NES, read on...

**CAPCOM HAS AN ACTION-PACKED LINEUP!**

**STREET FIGHTER 2010: THE FINAL FIGHT**

Fans of the arcade hit should look out for the NES sequel, Street Fighter 2010: The Final Fight. This SF martial arts game tells the story of Ken’s revenge. But the real action isn’t in the story, it’s in the play. Right from the start Ken is in deep trouble with robots and hungry piranha. Your ability to flip, spin, leap, and even fire downward is your advantage over the aliens.

**LITTLE NEMO THE DREAM MASTER**

Little Nemo searches a dreamworld for his playmate, the Princess of Slumberland. But to get through Slumberland requires some special moves and a generous nature. For instance, if Nemo feeds candy to his furry friends, they’ll share their special abilities with him. It’s no surprise that Nemo doesn’t want to wake up. You won’t, either.

**DESTINY OF AN EMPEROR**

This Role Playing Game set in ancient China, combines some of the game play mechanics of Dragon Warrior with a historical strategy theme like Nobunaga’s Ambition. Three warrior generals and their armies set out to defeat the forces of the Yellow Scarves, which are terrorizing the entire country. As they travel through China, they will find followers, battle bandits and equip their armies with better weaponry. A long playing game, even at its quickest it takes many hours to complete.
Part 1 of 2

FROM BANDAI

"Calling Dick Tracy! Calling Dick Tracy!" "I'm on my way-to the NES!" Comics' most famous police detective is speeding his way from the page (and the silver screen) to the small screen courtesy of your NES. What's the rush? Big Boy Caprice has started a gigantic crime wave, but Tracy doesn't have the evidence to put him away. That search for clues takes Tracy into danger and intrigue, which you follow in the cinema scenes. A nice touch is that you can review old clues in these cinema scenes. Dick Tracy’s action game play reminded us of Who Framed Roger Rabbit? without the Toons. Frankenstein’s Monster rises from the grave in Frankenstein The Monster Returns from Bandai. There’s cinematic drama in the story screens and Castlevania-like action in the play. The classic elements of horror abound: surprise, danger, and reanimated matter running amok!

Arcadia, who developed and programmed many games for personal computers, coin-op machines and other Nintendo licensees, is entering the NES arena with two titles based on hot characters. We already told you about Spot in our New Games section. Silver Surfer, which is scheduled to appear before the year’s end, follows the cosmic adventures of the fan favorite from Marvel Comics. Galactus, Fire Lord, other allies and adversaries of the Surfer make appearances in the game’s 14 levels that feature left to right and top/down scrolling plus cinema scenes to tell the game’s story.

Taito is working on the NES version of Indiana Jones And The Last Crusade with Lucasfilm Games, the people who programmed the PC version. If it plays anything like the movie, it should make for non-stop excitement!
Capitalizing on America's love of speed and imbalance, Electronic Arts and Ultra are planning games that feature skateboarding and roller derby action. The programmers of the original Skate Or Die, Electronic Arts, are working hard on Skate Or Die 2: The Search For Double Trouble. Like the original, Skate Or Die 2 encompasses a wide variety of skating environments and situations, but instead of centering on a skate shop, the different skating tasks are linked by a tongue-in-cheek (but all too realistic) story about the banning of skateboarding. The game is powered by a driving rock soundtrack. In Rollergames from Ultra, which may be described as Double Dragon on roller skates, the rough teams on the roller derby circuit have kidnapped the owner of Rollergames, a roller derby track. As a member of the T-Birds, Hot Flash or Rockers, it's up to you to rescue him. You'll skate through the urban jungle, facing other warriors wheels as well as difficult jumps and rolling obstacles.

Although we like to concentrate on NES games in Nintendo Power, we still keep close tabs on the arcades. After all, many arcade games make their way to the NES, and Nintendo has a commercial division that markets the PlayChoice video game juke box. Speaking of the PlayChoice, you can expect to see some hot new games on this machine before they hit the NES. The newest arrivals are Ninja Gaiden II, Rescue Rangers and Captain Skyhawk. And if you can't find Super Mario Bros. 3, chances are you haven't looked at your neighborhood PlayChoice. One of the biggest trade shows for the coin operated video game industry, ACME, was held in Chicago March 9-11. Plenty of hot new arcade machines were shown, including many we thought would make excellent NES games. We haven't heard of any plans on these, but here are a few we'd like to see for the NES (hint, hint): Aliens from Konami, Merc and Buster Bros. from Capcom, Big Run from Jaleco, Tiki from Fabtak and Dragon Breed from Irem. It's no coincidence that the top coin operated developers are also creating hits for the NES. Another interesting device rolling out at the ACME show was a pinball machine from Data East in which the player activates the flippers with his brainwaves, which are transmitted to the game by special headgear.

History tells us that the Olympic games originated in ancient Greece, but according to new findings by Data East, the games go back a lot farther than that—to the Stone Age! Of course, the actual events have changed radically since the Neanderthal's time, and we no longer see such sports as Mate Tossing, Clubbing and the Dinosaur Vault. But you will be able to participate in these in Caveman Ugh-lympics, a humorous twist on the stadium events theme.
GOSSIP GALORE

We heard about these on the grapevine—most are still a ways off, but probably sooner than you think.

G.I. JOE

One of the most popular toy action figures of all time, G.I. Joe will soon star in an NES game. Currently in the programming stage, Taxan is working on a G.I. Joe game for the NES and Game Boy. The NES version will feature a three megabit configuration. The game will have many adventures, several difficulty levels, multiple endings and a password capability.

KICKLE CUBICLE

You have to like the name of this puzzle action game from Irem. With its whimsical setting, fairy tale characters and perplexing game play, it should appeal to aficionados of games like The Adventures Of Lolo. Although it starts out easy, wait until you reach Toy Land!

THUNDERBIRDS

Activision's Thunderbirds game which we mentioned a few issues back is off and flying and looks good. Here's a screen shot:

U-FORCE POWER GAMES

The first Game Pak designed exclusively for use with the U-Force includes Power Field B-Ball (a one-on-one basketball game), Rock On Air (a "air band" music synthesizer), Nuclear Rat Attack (a space setting action game) and Hose 'Em Down (a fireman rescue game with a humorous "keystone cops" feel).

NINTENDO

Nintendo has many hot projects in the works, including two set in modern times, SimCity, a PC style resource management and role playing game, as well as another puzzle game, Dr. Mario, that is as addicting as Tetris. We'll let you know more in future issues.

LOOPZ

What would you get if you crossed Tetris with Pipe Dream? Loopz from Mindscape, that's what. Faced with relentlessly appearing block segments of different sizes and shapes, you must arrange them on a grid into loops, or closed shapes. You have only a limited time to place each piece—if you take too long, you'll "miss" and you only get three misses. This one could be another habit forming mind game!

TIME LORD

Milton Bradley is bringing out this time hopping action jaunt, programmed by Rare. Travel through the centuries, from Medieval times to the Wild West, to collect the orbs you need to save the world in the year 2999.

PLUS—Our regular round up of radical readings!

Dear Readers—

With this issue, we’ve reached another Nintendo Power milestone—two complete years of publication! It seems like we’ve spent a million hours working on the magazine, but every minute was worth it! Now would be a good time to make sure you have the entire collection of Nintendo Power. We’re getting low on some of our key back issues—the ones that are sure to be collector’s items.

Speaking of collector’s items, I hope everyone had a chance to pick up our first Nintendo Power Strategy Guide. Let us know how much you liked it, or if you have any suggestions for future guides. We want to make our Strategy Guides as fun and informative as possible! Don’t miss the Ninja Gaiden II Strategy Guide that’s coming your way next month. It might be even more exciting than the game!

By the end of the year, we should have over 400 titles for the NES and close to 60 for Game Boy! We’ll let you know more about any additional Fall releases announced at the CES next issue. Meanwhile, you can see some of the future games that we’ll see at the show at the Nintendo Power Fest when it hits your town. Check it out!

Our goal is to try and preserve classic videogame magazines from years gone by before they are lost forever.

Thanks goes out to all the people who make this possible. From the original editors and writers, to everyone involved in acquiring and digitizing these magazines.

People interested in helping us out, in whatever way possible. Either by donating classic magazines, scanning, editing or distributing them, visit us at http://www.retromags.com

We are only interested in preserving classic magazines that are at least 5 years out of print.

We have no desire or intention to profit from these in any way. So please, if you come across people trying to sell these releases, don't support them!

Thank You and ENJOY!
